

COMMUNITY ENGAGEMENT GUIDELINES

- You must be at least 18 years of age to engage with QBREXZA social media channels. If you are an adult attempting to create a post that features the name or likeness of a minor, you **MUST** be the parent or legal guardian of that minor.
- The goal of QBREXZA social media channels is to share relevant content with our audiences across all pages managed by QBREXZA. Content sharing includes, but is not limited to, receiving feedback, providing answers to questions, and otherwise sharing Journey Medical Corporation professional perspectives.
- Posts from the QBREXZA page are not nor are they intended to be medical advice, consultations, or diagnoses. Consult your healthcare provider for any medical and health-related matters. Reliance on any information provided on QBREXZA social channels is solely at your own risk.
- It is our goal to respond to messages and feedback in a timely manner. Our pages are monitored on weekdays during business hours. There is only so much we can communicate through a social media platform, and we'd like the opportunity to answer your questions in the most complete and effective way possible.
- Replies on content and messages from other users do not necessarily reflect the opinions of Journey Medical Corporation. We do not endorse any content added by other users.

To ensure the integrity and safety of our social channels, all users should follow the rules outlined below:

- QBREXZA social channels constitute a safe environment for discussing and sharing experiences. Please share your viewpoint in a way that remains respectful to us and our community, and is not inappropriate, off-topic, abusive, harassing, profane, and does not promote/solicit third-party sites, initiatives, or products.
- Pictures of specific treatment areas (underarms) should comply with the guidelines of the social media platform.
- If you would like to report suspected side effects, please contact Journey Medical Corporation at 1-855-531-1859. You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.
- If messages are posted that violate our Community Guidelines, we reserve the right to reject or remove them. We also reserve the right to block or ban community members who violate any policies detailed in this Community Guidelines document.

Legal and regulatory limitations

QBREXZA is a product that operates within a highly regulated industry, as such, there are limitations to the information we can share via social media. Discussion between community members on our pages may need to be restricted for the same reason. We ask that you refrain from attaching the QBREXZA brand to posts that contain:

- Third-party, confidential, or non-public information.
- Medical advice or product usage information.

- Unsubstantiated claims about our products that are false, inaccurate, or misleading; or any discussion of “off-label” or unapproved/non-directed uses of our products.
- The names of any private citizen, or any other information that would allow someone to identify the individual(s), unless those individuals have expressly consented to such use.
- Any knowingly plagiarized information.

User-Generated Content

Please do not submit any idea or material to our social channels that you wish to keep confidential or for which you expect to receive any sort of compensation. By sharing a post from a QBREXZA social media account OR tagging a QBREXZA social media account in a post, you understand and agree that your post(s), and any ideas or techniques contained therein, may be shared across QBREXZA social channels. If we utilize your post(s) elsewhere, you recognize that your name, likeness, and social media handle will be visible and associated with your message.

Reporting Adverse Events

To report suspected side effects, contact Journey Medical Corporation at 1-855-531-1859 or the FDA at 1-800-FDA-1088 or www.fda.gov/medwatch. We reserve the right to contact you if such information is messaged in this public forum. Your message may also be submitted to law enforcement if we have a good-faith belief that disclosure of such information is reasonably necessary to detect and prevent fraud, or to protect the safety of the public or an individual.
